

## DC OIL FILLED CAPACITORS

As one of the few remaining oil filled capacitor manufacturers, we continue to design robust paper and film combination dielectrics for high performance power conversion applications. This includes a wide range of oil impregnated DC rated capacitors for filtering, pulse and snubber applications. Naturally, we use environmentally friendly fluids engineered to provide corona free and long life.

Type	Description	Form Factor	Style	Voltage(VAC)	Capacitance Range( $\mu$ F)
OTB	DC Blocking or Filter, Motor-Run		Oval	400 - 3000 Vpk	.1-35 $\pm$ 10%
SCR	HF pulses, SCR Commutation		Oval & Rectangle	200 - 2000 Vpk	.25-50 $\pm$ 10%
SNU	Power Snubbers		Oval	1000 & 2000 Vpk	.05-2 $\pm$ 10%
T	HV Filters, Power Supplies, Radar Amps		Oval	600 - 5000 Vdc	.1-15 $\pm$ 10%
